SUBSTANCE OF INTERVIEW

On May 3, 2007, Applicants' representative, Ronald Schoenbaum, met with Supervisory Primary Examiner Robert Pezzuto to discuss the present application. During the interview, Mr. Schoenbaum explained Applicants' position that the applied references, Knorr and Robertson, do not collectively suggest the invention as defined in any of the independent claims, nos. 1, 12, 24 and 33. Mr. Pezzuto requested that Applicants file a formal response briefly explaining why the claims are patentably distinct from these references, and indicated that he would withdraw the rejection upon receipt of such a response. No other claims or references were discussed, and no exhibits were presented.
